

Mount Olive College is Transforming Lives

"MOC is the solid educational foundation that I have anticipated for years. My expectations were exceeded academically and spiritually through classes, teachers, ministries, and fellow students. I know that the most crucial part of this educational journey is my beginning at MOC; it is a priceless investment in the rest of my life."

*-Tabatha Kennedy
Sophomore, Biology Major*

"My experience with this college is one I cannot compare with anything else. From the teachers I've had, to the friends that I've met, and the teachers that have become my friends, this college has not only educated me about the business field but also taught me alot about life."

*-Trent Lassiter
Junior, Business Management Major*

"MOC has truly transformed my life and I am grateful for the financial support that donors have provided me. I hope the donors will continue to support MOC so future students can have the privilege to receive the same education I am receiving."

*-Roshelle Branch
Sophomore, AgriScience Education Major*

"Mount Olive College has provided me with not only the skills to become a better player, but also to be the best student possible. My coach is always stressing the importance of academics. I was awarded the NCAA Division II Baseball Player of the Year award, but nothing will compare with my MOC diploma on graduation day!"

*-Erik Lovett, '08
Recreation and Leisure Studies Major*

You Can Transform Lives
